

**G-SEAL™** Surface Protector is a pressure washer applied surface protector which uses the power of nanotechnology and American grown base oils to repel water, ice, snow, bugs and bird droppings while sealing out dirt and shielding against harmful UVA and UVB sun rays.

**ULTIMATE BIODEGRADABLE** and environment safe, G-SEAL Surface Protector is the GREEN SOLUTION for protecting a variety of outdoor surfaces, including wood, vinyl, concrete and brick as well as wood & vinyl outdoor furniture. G-SEAL products will not harm the environment by traveling into our waterways...satisfaction guaranteed!

**DIRECTIONS:** For use with G-Clean Protectant Applicator Only. Clean all surfaces thoroughly before applying G-SEAL Protector. Insert applicator hose into bottle and secure. Use chart to select appropriate dilution rate for your application. Set dilution rate on brass valve and test product in an inconspicuous area first. Apply product in overlapping stripes (from bottom to top on vertical surfaces).

1 Gallon of G-SEAL Surface Protector will cover 500 to 2500 sq ft. depending on dilution setting and the porosity of the surface. Allow coating to cure undisturbed in dry warm weather for approximately 10 hrs for best results. Do not apply to glass.

SURFACE	RATE
WOOD	1
BRICK	2
CONCRETE	3
VINYL	4

HAZARD RATING	
4 – Extreme	Fire
3 – High	Toxicity
2 – Moderate	0
1 – Slight	0
0 – Insignificant	Special
